

# Independent Practitioner's Reasonable Assurance Report

## To the Directors of Grape Growers of Ontario,

We have undertaken a reasonable assurance engagement of the accompanying values on the 2023 grapes for processing pricing schedules for the varieties under classes 9, 9b, 9c, 9d, 9e, 9f, 9g, 10, 10a, 10b, 10c, 10d, and 10e, distilling, hybrid icewine juice, vinifera icewine juice, hybrid and vinifera late harvest juice (the "subject matter information") of Grape Growers of Ontario (the "Entity") as at March 6, 2023.

### Management's Responsibility

Management is responsible for the preparation of the subject matter information in accordance with Agreement for Marketing the 2023 crop of classes 5-10G inclusive grapes for processing under the Grape Growers of Ontario Marketing Plan for Processing (the "applicable criteria"). Management is also responsible for selecting the applicable criteria used and for such internal control as management determines necessary to enable the preparation of the subject matter information that is free from material misstatement, whether due to fraud or error.

### Our Responsibility

Our responsibility is to express a reasonable assurance opinion on the subject matter information based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements (CSAE) 3000, Attestation Engagements Other than Audits or Reviews of Historical Financial Information. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the subject matter information is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. The nature, timing and extent of procedures selected depends on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involves obtaining evidence about the preparation of the subject matter information in accordance with the applicable criteria.

Our engagement included, amongst others, the following procedures performed:

1. Obtain from management the 2023 grapes for processing pricing schedules for classes 9 to 10 varieties, which include:
  - Class 9 – Riesling
  - Class 9b – Chardonnay and Chardonnay Musque
  - Class 9c – Gewurztraminer
  - Class 9d – Pinot Gris and Pinot Blanc
  - Class 9e – Sauvignon Blanc and Semillon
  - Class 9f – Muscat Ottonel
  - Class 9g – Viognier
  - Class 10 – Gamay Noir and Zweigeltrebe
  - Class 10a – Pinot Noir
  - Class 10b – Cabernet Sauvignon
  - Class 10c – Cabernet Franc
  - Class 10d – Merlot and Petit Verdot
  - Class 10e – Syrah / Shiraz
  - Distilling
  - Hybrid and Vinifera icewine juice
  - Hybrid and Vinifera late harvest juice
2. Determine an appropriate materiality.
3. Agree the base prices and brix measurement to the applicable criteria
4. Recalculate the minimum price per tonne on the brix pricing schedules for the specified varieties based on the bonus and penalty calculations of the Agreement including the limitations from the sherry prices.
5. Compare the results of the recalculation to the actual 2023 grapes for processing pricing schedules.

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our opinion.

### **Our Independence and Quality Management**

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Management 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements*, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

### **Opinion**

In our opinion, the subject matter information of the Entity as at March 6, 2023 is prepared, in all material respects, in accordance with the applicable criteria.

The subject matter information has been prepared in accordance with the applicable criteria to assist the Entity in meeting the requirements of Agreement for Marketing the 2023 crop of classes 5-10G inclusive grapes for processing under the Grape Growers of Ontario Marketing Plan for Processing. As a result, the subject matter information may not be suitable for another purpose.

**Restriction on Use**

Our report is intended solely for the Entity and the Ontario Craft Wineries and Wine Growers Ontario and should not be used by other parties.

**NOTE: Company Average**

Plateau prices may be applied to Chardonnay grape purchases at Brix levels ranging from 18.6°-21.4° if the Processor's company average falls on or below the Brix threshold of 20.4°. All processors purchasing grapes at plateau prices must sign with their growers the 2023 Plateau Pricing "Intent to Purchase Consent Form".

**NOTE: Company Average**

Plateau prices may be applied to Riesling grape purchases at Brix levels ranging from 16.8°-19.4° if the Processor's company average falls on or below the Brix threshold of 18.4°. All processors purchasing grapes at plateau prices must sign with their growers the 2023 Plateau Pricing "Intent to Purchase Consent Form".
